We think we have seen the worst of this world: the violation of human rights, terrorism and killings here and there. Sadly, it is going to get worse because the future is not "bright". We also think we (humans) rule the world and nothing can ever change that but if we do nothing, the environment and technology would unseat us. Also, we are so engrossed in other seemingly important things except the things that can save us.

In the book, "21 lessons for the 21st century, Yuval Noah Harari raises challenging questions about concepts that have become so enshrined in the global society and the author shows how these concepts have failed us, particularly now

that we need them the most. This book rattles the foundation of everything we have believed over the years and how they are now the very things that have stopped us from coming together to fight and win the battle of the future.
