THE OLD RULES NO LONGER APPLY . . .

When General Stanley McChrystal took command of the Joint Special Operations Task Force in 2004, he quickly realized that conventional military tactics were failing. Al Qaeda in Iraq was a decentralized network that could move quickly, strike ruthlessly, then seemingly vanish into the local population. The allied forces had a huge advantage in numbers, equipment, and training—but none of that seemed to matter.

TEACHING A LEVIATHAN TO IMPROVISE

It's no secret that in any field, small teams have many advantages—they can respond quickly, communicate freely, and make decisions without layers of bureaucracy. But organizations taking on *really* big challenges can't fit in a garage. They need management practices that can scale to thousands of people.

General McChrystal led a hierarchical, highly disciplined machine of thousands of men and women. But to defeat Al Qaeda in Iraq, his Task Force would have to acquire the enemy's speed and flexibility. Was there a way to combine the power of the world's mightiest military with the agility of the world's most fearsome terrorist network? If so, could the same principles apply in civilian organizations?

A NEW APPROACH FOR A NEW WORLD

McChrystal and his colleagues discarded a century of conventional wisdom and remade the Task Force, in the midst of a grueling war, into something new: a network that combined extremely transparent communication with decentralized decision-making authority. The walls between silos were torn down. Leaders looked at the best practices of the smallest units and found ways to extend them to thousands of people on three continents, using technology to establish a oneness that would have been impossible even a decade earlier. The Task Force became a "team of teams"—faster, flatter, more flexible—and beat back Al Qaeda.

BEYOND THE BATTLEFIELD

In this powerful book, McChrystal and his colleagues show how the challenges they faced in Iraq can be relevant to countless businesses, nonprofits, and other organizations. The world is changing
